Your Eligibility and You

Academic-Eligibility Requirements

Division I

If you want to participate in athletics or receive an athletics scholarship during your first year, you must:

- Graduate from high school;
- Complete these 16 core courses:
 - 4 years of English
 - 3 years of math (algebra 1 or higher)
 - 2 years of natural or physical science (including one year of lab science if offered by your high school)
 - 1 extra year of English, math, or natural or physical science
 - 2 years of social science
 - 4 years of extra core courses (from any category above, or foreign language, non-doctrinal religion or philosophy);
- Earn a minimum required grade-point average in your core courses; and
- Earn a combined SAT or ACT sum score that matches your core-course grade-point average and test score sliding scale (for example, a 2.400 core-course grade-point average needs an 860 SAT).

Requirement to graduate with your high school class

You must graduate from high school on schedule (in eight semesters) with your incoming ninth-grade class. If you graduate from high school in eight semesters with your class, you may use **one** core course completed in the year after graduation (summer or academic year) to meet NCAA Division I eligibility requirements. You may complete the core course at a location other than the high school from which you graduated and may initially enroll full time at a collegiate institution at any time after completion of the core course.

Division I Qualifier

Being a qualifier entitles you to:

- Practice or compete for your college or university during your first year of college;
- Receive an athletics scholarship during your first year of college; and
- Play four seasons in your sport if you maintain your eligibility from year to year.

Division I Nonqualifier

As a nonqualifier, you will not be able to:

- Practice or compete for your college or university during your first year of college; or
- Receive an athletics scholarship during your first year of college, although you may receive need-based financial aid.

You may be able to play only three seasons in your sport if you maintain your eligibility from year to year (to earn a fourth season you must complete at least 80 percent of your degree requirements before beginning your fifth year of college).

Division II

2008 - 2013

If you enroll in a Division II college and want to participate in athletics or receive an athletics scholarship during your first year, you must:

- Graduate from high school;
- Complete these 14 core courses:
 - 3 years of English
 - 2 years of math (algebra 1 or higher)
 - 2 years of natural or physical science (including one year of lab science if offered by your high school)
 - 2 additional years of English, math, or natural or physical science
 - 2 years of social science
 - 3 years of extra core courses (from any category above, or foreign language, non-doctrinal religion or philosophy);
- Earn a 2.000 grade-point average or better in your core courses; and
- Earn a combined SAT score of 820 or an ACT sum score of 68.

2013 and Later

If you enroll in a Division II college on or after August 1, 2013, and want to participate in athletics or receive an athletics scholarship during your first year, you must:

- Graduate from high school;
- Complete these 16 core courses:
 - 3 years of English
 - 2 years of math (algebra 1 or higher)
 - 2 years of natural or physical science (including one year of lab science if offered by your high school)
 - **3** additional years of English, math, or natural or physical science
 - 2 years of social science
 - **4** years of additional core courses (from any category above, or foreign language, non-doctrinal religion or philosophy);
- Earn a 2.000 grade-point average or better in your core courses; and
- Earn a combined SAT score of 820 or an ACT sum score of 68.

Division II Qualifier

Being a qualifier entitles you to:

- Practice or compete for your college or university during your first year of college;
- Receive an athletics scholarship during your first year of college;
- Play four seasons in your sport if you maintain your eligibility from year to year.

Division II Partial Qualifier

You will be considered a partial qualifier if you do not meet all of the academic requirements listed above, but you have graduated from high school **and** meet one of the following:

- The combined SAT score of 820 or ACT sum score of 68; or
- Completion of the 14 core courses with a 2.000 core-course grade-point average.

As a partial qualifier, you:

- Can practice with your team at its home facility during your first year of college;
- Can receive an athletics scholarship during your first year of college;
- Cannot compete during your first year of college; and
- Can play four seasons in your sport if you maintain your eligibility from year to year.

Division II Nonqualifier

You will be considered a nonqualifier if you did not graduate from high school, or, if you graduated and are missing both the core-course grade-point average or minimum number of core courses and the required ACT or SAT scores.

As a nonqualifier, you:

- Cannot practice or compete for your college or university during your first year of college;
- Cannot receive an athletics scholarship during your first year of college, although you may receive need-based financial aid; and
- Can play four seasons in your sport if you maintain your eligibility from year to year.

Division III

Division III does not use the Eligibility Center. Contact your Division III college or university regarding its policies on admission, financial aid, practice and competition.

Remember

Meeting the NCAA academic rules does not guarantee your admission into a college. You must apply for admission.

Core Courses, Grade-Point Average, Tests and Special Conditions

What Is A Core Course?

A core course must:

- Be an academic course in one or a combination of these areas: English, mathematics, natural/physical science, social science, foreign language, nondoctrinal religion or philosophy;
- Be four-year college preparatory;
- Be at or above your high school's regular academic level (no remedial, special education or compensatory courses); and
- Be completed not later than the high school graduation date of your class [as determined by the first year of enrollment in high school (ninth grade) or the international equivalent].

Not all classes you take to meet high school graduation requirements may be used as core courses. Courses completed through credit-by-exam will not be used.

Check your high school's list of approved core courses at the Eligibility Center Web site at <http://www.ncaaclearinghouse.net/> or ask your high school guidance counselor.

Keep Track Of Your Courses, Units and Credits

By logging onto <http://www.ncaaclearinghouse.net/> and clicking "General Information," you will find the Divisions I and II worksheets, which will help you keep track of your completed core courses, units, grades and credits you received for them, plus your ongoing grade-point average. Generally, you will receive the same credit at the Eligibility Center as you received from your high school. Examples are provided in the English and math sections of both worksheets:

1 trimester unit = 0.33 units

1 semester unit = 0.50 units

1 year = 1.0 unit

Grade-Point Average

How Your Core-Course Grade-Point Average is Calculated

The Eligibility Center will calculate the grade-point average of your core courses on a 4.000 scale. The best grades from your NCAA core courses will be used. Grades from additional core courses you took will be used only if they improve your grade-point average. To determine your points earned for each course, multiply the points for the grade by the amount of credit earned. Use the following scale unless your high school has a different scale on file with the Eligibility Center:

A – 4 points C – 2 points

B – 3 points D – 1 point

Remember: The Eligibility Center does not use plus or minus grades when figuring your core-course grade-point average. For example, grades of B+, B and B- will each be worth 3 quality points.

Special High School Grades and Grade-Point Average

If your high school uses numeric grades (such as 92 or 93), those grades will be changed to your high school's letter grades (such as A or B). See your high school's grading scale by pulling up your school's list of approved core courses at <http://www.ncaaclearinghouse.net/>.

If your high school normally "weights" honors or advanced courses, these weighted courses may improve your core-course grade-point average. Your high school must notify the Eligibility Center of such weighting. To see if your high school has a weighted scale that is being used for calculating your core-course grade-point average, visit <http://www.ncaaclearinghouse.net/> for an explanation of how these grade weights are handled.

Examples of total quality point calculation:

- An A grade (4 points) for a trimester course (0.33 units):
 $4 \text{ points} \times 0.33 \text{ units} = 1.32 \text{ total quality points}$
- An A grade (4 points) for a semester course (0.50 units):
 $4 \text{ points} \times 0.50 \text{ units} = 2.00 \text{ total quality points}$
- An A grade (4 points) for a full-year course (1.00 units):
 $4 \text{ points} \times 1.00 \text{ units} = 4.00 \text{ quality points}$

Calculate Your Overall Grade-Point Average

To calculate your estimated core-course grade-point average, divide the total number of points for all of your core courses by the total number of core-course units you have completed.

Note: Your calculation helps you keep track of your grade-point average. Should you have any questions, contact your high school guidance counselor.

IMPORTANT NCAA NEWS:

Attention 2007 High School Graduates (and anyone planning to attend an NCAA member institution starting in the 2007-08 academic year)!

The NCAA has adopted new legislation that will require prospects who intend to enroll at NCAA Division I and Division II institutions to supply ACT or SAT scores to the Clearinghouse directly from the testing agencies.

Test scores on an official high school transcript will no longer be usable for NCAA purposes.

Start now and plan to have your ACT and SAT scores sent to the Clearinghouse (via code "9999") so that your certification decision will not be delayed. For more details consult the NCAA's website or call the Clearinghouse.

This change in legislation will impact anyone who has previously registered with the Clearinghouse and intends to enroll in fall 2007 or later. If your record has been posted with scores from an official high school transcript, these scores will be removed and it will be necessary for you to comply with this new rule.

Student Athletes who have taken the test prior to this fall and would like for them to be counted, please be sure to contact the ACT and/or SAT companies and have them send a copy of your test scores to the Clearinghouse.

The ACT fee is \$8 per test if the request is made on line. If the request is a priority, the fee is \$13. If the request is made by phone, there will be an additional \$10 call in fee. The SAT fee is \$9.50 per test if the request is made on line. If the request is made by phone there will be an additional \$10 call in fee.
